

ProServeIT's Microsoft Teams Custom Solution Workshop

Our Microsoft Teams Custom Solution Workshop is here to show you “the art of the possible” when it comes to implementing Microsoft Teams in your organization. If our Calling & Meetings Workshop and Adoption & Change Management Workshop do not meet your unique needs, our dedicated Teams experts will be happy to create a custom workshop. During the workshop, they will learn about your unique pain points and help you come up with a customized roadmap to help make your Teams implementation a success.

If you'd like to check out our other Teams offerings, you can find them here:

- Teamwork Assessment
- Calling & Meetings Workshop
- Adoption & Change Management Workshop

Deliverables & Activities

This customized workshop is all about you! Our experts will help you:

- Review what Microsoft Teams is capable of & how it could be utilized in your organization.
- Review your organization's unique needs & requirements for a teamwork solution.
- Show us what you're currently working with & determine whether or not it's effective for your needs.
- Visualize your design and development elements with Whiteboarding sessions.
- Discuss how to drive adoption of Microsoft Teams in your organization.
- Create a customized roadmap to make your Teams implementation a success.
