

ProServeIT's Power Apps Whiteboarding Session

Are you looking for business apps to help you automate some of your more tedious tasks (like vacation request and approvals) or make your employees more efficient with their time? Help is a lot closer than you might think! Microsoft Power Apps has the capability to help you modernize your workplace! And, if your organization is currently using Office 365, you already have access to Office 365 Power Apps*.

* Depending on the license you have.

What is Power Apps Whiteboarding Session?

ProServeIT's Power Apps Whiteboarding Session is a chance to explore how a custom-built Power App can help ease the pain caused by your most painful business process - the one that's been driving you and your staff to distraction.

Deliverables & Activities

From our Power Apps Whiteboarding Session, you'll receive:

- An understanding of how Power Apps works, what Power Apps can do for you, and how Power BI and Flow fits in.
- A copy of the whiteboarding session.
- Recommendations on how to modernize one of your current business processes.
- A "Next Steps" document that will help you move forward.
