

Turbo Assessment

Reduce time required to collect location-by-location data, including photos.

Automate time-consuming process of aggregating data.

Easier, faster, and better Condition Assessment outcomes with Corrigo Inspections.

The Turbo Assessment app by Corrigo dramatically streamlines your Condition Assessment survey process. Created by facilities professionals working with Corrigo technology experts and partners, the Turbo Assessment mobile app drives accurate and complete results to enhance your success on the Corrigo platform:

OPTIMAL BRAND STANDARDS

Ensure properties are consistently clean, in good working order, and delivering an on-brand guest experience.

CONTINUOUS SYSTEMIC IMPROVEMENT

Identify and correct systemic issues that which are driving spend across your real estate portfolio.

SHARPER FINANCIAL MANAGEMENT

Turn location-by-location, asset-by-asset, and system insights into more precise financial forecasting.

Turbo Assessment

FAST, EASY, STANDARDIZED DATA COLLECTION

Intuitive mobile app is easy for facilities personnel and techs to use, speeding data collection.

- Checklists follow the flow of your facilities, so teams avoid hunting for items on list
- Standardized grading system ("Good, Fair, Poor, Replace in FY20, 21, or 22")
- Assessments are validated by GPS time stamp (exact location, time, date)
- If immediate repair need is identified, surveyor can instantly issue work order using Corrigo mobile app on mobile device

We have limited reporting capabilities, so we lack insight into our spend behavior across locations and concepts.

THOROUGH, COMPLETE, AND ACCURATE DATA

Standardized checklists guide facilities personnel and techs through each area to ensure ALL areas of survey are performed at ALL locations. No missed sections. No gaps in your data!

- Ensure a complete view of every asset
- Capture photos of every defect and asset
- Up to 600 questions/data collection points
