

Can You Afford to Preserve your Learning-Ready Environment?

Facilities management in education comes with the unique charge to provide a learning environment supporting the development of the next generation. Many institutions can't afford to keep doing this the way they've always done it.

MANAGE MAINTENANCE REQUESTS BETTER TO REDUCE COSTS, IMPROVE RESULTS, MINIMIZE WORKLOAD, AND ENHANCE VISIBILITY FOR SHARPER DECISION-MAKING

Handling service requests well is a primary driver of resident satisfaction for education facilities. Effective management of maintenance impacts everything from the maintenance budget to safety to the educational experience for faculty and staff.

Corrigo delivers powerful benefits that support your objectives:

Improve Operational Efficiency: Tame the paperwork and manual processes so you can manage diverse residential and academic facilities with improved transparency and speed.

Lower Costs: Our clients reduce property management work order costs. Whether you rely on full-time maintenance staff, contractors, or service providers, you'll be amazed by the productivity improvements.

Student and Faculty Satisfaction: Your customers easily make service requests, view work updates, and stay engaged with you through Corrigo.

Powerful Reporting: Enjoy powerful and configurable reporting tools to analyze performance, maximize asset ROI, and report on your success.

By integrating with back-office systems, Corrigo can further enhance your property maintenance operations with better visibility to warranty information, greater control over costs, and automated billbacks for above-standard work.

CONNECT EVERYONE IN THE SERVICE REQUEST & DELIVERY PROCESS

Corrigo connects administration, students, faculty, technicians, property management personnel, vendors and management using our powerful mobile apps.

Service requests may be initiated by anyone and dispatched with just a few clicks.

Each request is immediately distributed through the service delivery chain, providing critical information to those who need it most, and ensuring timely and efficient service.

Satisfaction surveys ensure that repairs are completed to your satisfaction, and keep everyone accountable for excellence.
