

## Refrigerant Tracking Made Easy

**Corrigo's Refrigerant Tracking module** takes the worry off your plate and provides for easy reporting to the EPA. Refrigerant is expensive, and improper management can multiply those costs while causing massive damage to the environment. Corrigo makes it easy to track, manage and document all of your facilities' refrigerant needs.

### BENEFITS OF REFRIGERANT TRACKING

#### With Corrigo's Refrigerant Tracking module:

-  **No more stacks of paper forms** – everything can be recorded and easily reported from the Corrigo app
-  **Easily document all repairs** including internal cost for individual work orders
-  **Easily see your calculated leak rate** and set a threshold at which action must be taken
-  **Never be caught off guard** – workflow prompts alert you and create follow-up work orders in alignment with EPA-required next steps
-  **Detail Pages show variances at a glance** and allow you to see exactly what type of refrigerant cylinders contain – easily document when they are disposed
-  **Simple mobile apps** for technicians and service pros to complete repairs

**Take the guess work – and the paperwork – out of refrigerant tracking.  
Corrigo has you covered.**
