

# Integration made easy with CorrigoPro Direct

**Introducing CorrigoPro Direct**, the easiest way to connect your in-house system to the CorrigoPro Network. With CorrigoPro Direct, you can use your existing work order software and still enjoy all of the benefits of CorrigoPro.

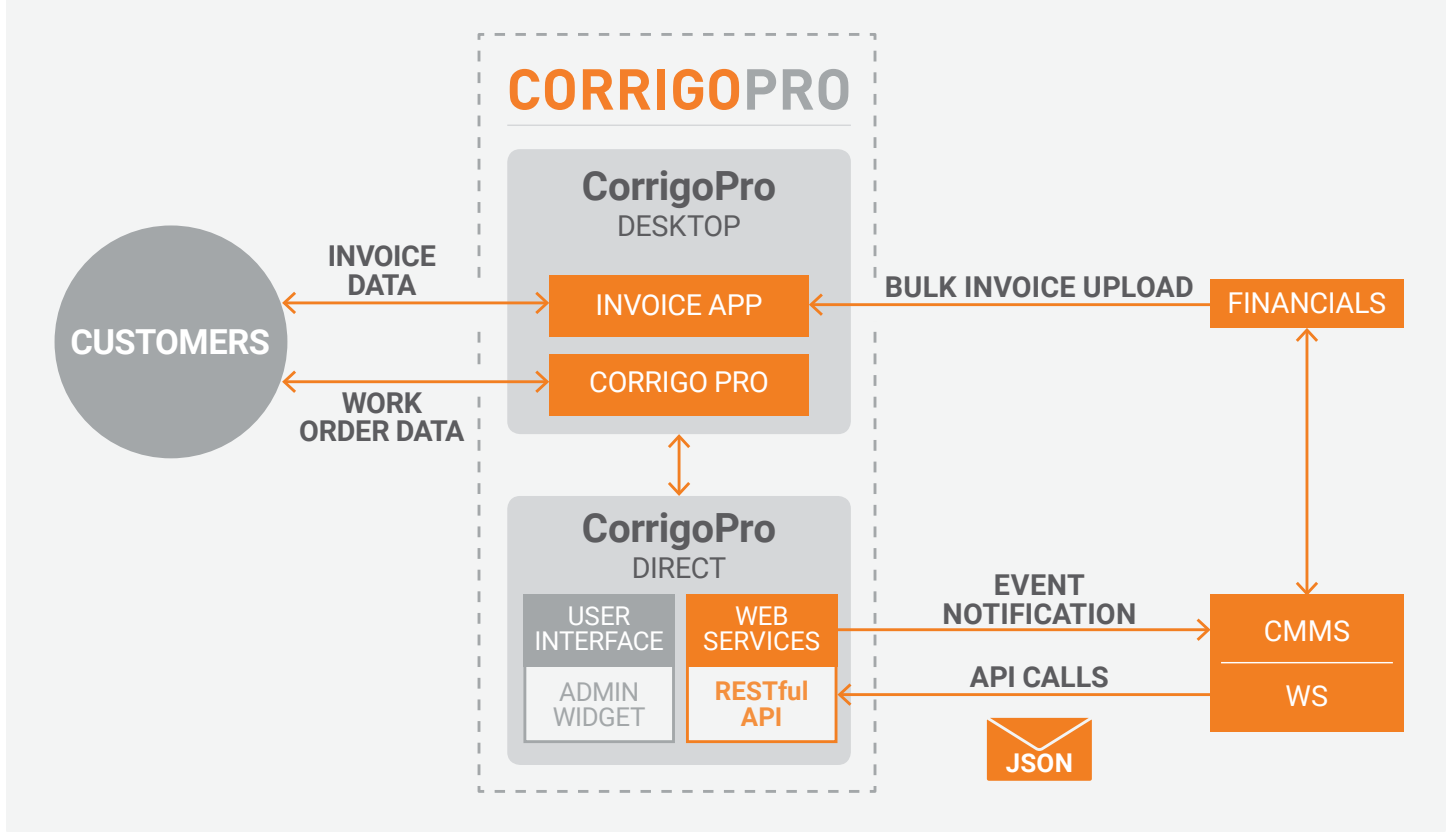

## BENEFITS FOR SERVICE PROS

**Because CorrigoPro Direct works with your existing work order system, Service Pros can expect to:**

-  Avoid swivel chair
-  Manage your work orders the way you want to
-  Spend less time training employees
-  Exchange information with clients directly via the CorrigoPro network
-  Cut down response time for customer inquiries and service requests
-  Stay in the know with real-time data processing and event notifications
-  Be protected by Security OAuth 2.0, the industry's most secure protocol
-  Experience superior reliability, including backup via CorrigoPro Desktop and service interruption notifications

**CorrigoPro Direct works for all of your Corrigo customers.  
One connection and you're done for all existing and future customers.**
