The Inbound Sales Funnel

Why do Sales Enablement?

The Top 5 Reasons to Start

1.) Inbound Marketing Efforts are Vulnerable

With no insight, budget, or control over the quality of the sales process or sales content, your agency is blind, powerless, and prone to churn.

**You bring clients leads
& they say...**

The leads are weak!

And you want to say...

SEPTEMBER SALES TO DATE	
ROMA	\$ 90,000
MOSS	\$ 27,500

You're weak.

2.) Exposure to Sales Budgets

- Opportunities have more value than leads.
- Sales organizations often have higher budgets than marketing.
- Increase LTV of clients.
- Be seen as a revenue engine.

3.) It Works

25% report slight to no known contribution.

75% report that it makes a moderate or significant contribution.

4.) Competition

- Less than 30% of SMBs have **any** Sales Enablement.
- Lots of thought leadership, very few “doers.”
- Shows you care about winning for clients.

5.) Content Dictatorship

- Control over sales collateral – both design & content quality
- Recurring sales content needs
- Accountability = control

**HOW TO USE SALES
ENABLEMENT TO DRIVE
CLIENT VALUE**

Sales Content Strategy and Process (A Knowledge Product)

Increase close rates by tailoring proposals to buyer personas.

What does your content need to say...

- At each stage of the buying process?
- For each persona?
- For each industry?
- For each product/service?

Sales Content Strategy and Process (A Knowledge Product)

Steps to build a sales enablement strategy and process.

1. Buyer Persona Questionnaire
2. Match needs with content
3. Match content with stages of the sales process
4. Match sales tasks with stages
5. Implement process in CRM

Your ideal buyers need to understand their challenge before they know what kind of solution to look for. These are often questions that come up early in sales conversations, but they are also questions that buyers are asking of Google, their peers, online forums and social networks.

What are three of the most common questions that your ideal buyer's ask about their challenges - **NOT YOUR SOLUTION**. Please include 3 questions and 3 concise answers for each of your buyer's challenges.

BUYER CHALLENGE 1

Challenge Question 1* How do I maximize the number of leads we generate?	Expert Answer 1* Create content offers for each stage of the buying process and make sure this content is behind landing pages that use web-forms to capture lead information.
Challenge Question 2* How can I boost lead generation quickly?	Expert Answer 2* Boost visibility to your offers and landing pages using targeted social advertising and organic promotion.
Challenge Question 3* What is the cheapest source of quality leads?	Expert Answer 3* Google: when Google recognizes that you are an authority in the space they will send you the hottest leads, right when they are ready to buy, for free, as long as you maintain your credibility by writing new content regularly.

BUYER CHALLENGE 2

Challenge Question 4* How do I get more leads that the sales team actually wants?	Expert Answer 4* Get the sales team involved in the inbound marketing process earlier. Have them approve incoming leads by "fit" first. Then use some automated lead nurturing and templated prospecting emails to identify the leads that are ready to buy and which ones are not.
Challenge Question 5* How do I get more leads to agree to speak with the sales team?	Expert Answer 5* Conducting interviews with prospects is a great way to get them talking about their challenges and their plans to address them. Plus this makes for great content in blogs and other marketing and sales content.
Challenge Question 6* When should the sales team engage a lead?	Expert Answer 6* They should always introduce themselves to every new lead. Use templates so that sales reps address new leads automatically. For leads that are a good "fit" have your sales team reach out personally with an interview request.
