“I have taken this training a couple of times over the years with different companies and have to say that the way it has evolved is really impressive. Trainers have always been great but I really love the format now--wonderful mix of lecture vs activities, right amount of info per module and appropriate mix of tech /best practice/strategy content.

You get much more than if you had just scanned through the documentation online. It was an excellent use of my time, even after taking it before. Great job. I honestly wouldn't change anything. Thanks!”

Alyssa Galeros Keefe
Senior Director of Marketing
“I had a great experience this week at the marketing fundamentals training. I loved the format of the course where there was equal time learning and 'playing'. I feel comfortable now that I have the full landscape of capabilities and best practices for linking them together.”

Jenna Connolly
Director of Accounts

Just Jump Marketing
The training was amazing! So informative and educational and also very engaging! I am so glad that I made the decision to attend!

Karly Field
Chief Marketing Officer

NXTsoft
“Great class for giving me a good overview of the product and what it can do. Because I’m new to the product, and the company, I now feel better equipped to use and support the application.”

Elzia Sekou
Lead Application Engineer
FAQs
What Subscription Level is Best?

We’re so glad you asked!

Professional and Enterprise Training is best suited for these subscriptions, as they will be able to access all the tools covered in the demos, best practices, and activities in training.

Free and Starter Training is still beneficial for these subscriptions, as they will be able to use a Sandbox portal for the duration of training. Be aware several sections include tools that are unavailable in the Free and Starter subscriptions.

“I learned so much during those 3 days and I'm already implementing some of what I learned in my day-to-day activities.”

What is the learning environment like?

Our learning environment is upbeat, engaging and inclusive. We know that everyone learns a little bit differently, so we've incorporated slide presentations, tool demos, practical application activities, and discussions to demonstrate best practices. Don't be shy! We love questions and encourage conversation so our attendees can also learn from each other.

“The Trainers were exceptional: Extremely knowledgeable, upbeat and supportive. The material covered all the right areas and the examples were spot on.”
