HubSpot

Service Hub Enterprise

Sophisticated tools to help your whole team measure the health of your customers and calculate revenue

Key Features

Playbooks
- Build a library of resources and guides for your service team to follow. Use rules-based automation to surface recommended content to your customer service team inside your HubSpot account. Up to 1,000 playbooks.

Calculated Properties
- Create fields in your HubSpot account that perform useful calculations and roll up data from other fields in your HubSpot account, like sales commissions and splits.

Goals
- Report on metrics related to a specific customer goal, like ticket response time. Use goals to track and meet your designated customer service level agreements (SLAs).
