Exciting**

JUNE | JULY | AUGUST

OVERVIEW

At Future Learning we are renowned for providing an excellent educational experience for our students. Our **Online Summer Programme** has been specifically designed for our partners and students during the Covid-19 Pandemic. We are delighted to be continuing our high standard of lesson delivery online which develops English Language and the 21st Century Skills that are essential for modern life, work and study.

COURSE DESCRIPTION

Future Learning's **Young Learner Programmes** focus on those vital skills which there isn't time for during the school year. On our **Online Summer Programme** we offer students a different project each week, designed to develop the skills and qualities which they will rely on in the world of higher study and work. In addition to communication skills these projects require problem solving and team work as well as challenging students to think critically and independently. These are also international projects which invite the students to explore each other's culture and develop an understanding of each other's countries and their people.

WHO IS THIS COURSE FOR?

Our **Online Summer Programmes** are aimed at Young Learners between 12 and 17 years of age. We divide students into two age categories; 12 to 15 years old and 16 to 17 years old, students are then further divided by language level and age is always taken into consideration. All nationalities are welcome.

WHAT'S INCLUDED?

- ✓ 12 hours of project-based language learning per course
- ✓ 2 afternoon activities per week totalling 3 hours
- ✓ 3 levels; B1 (intermediate) to C1 (advanced)
- ✓ Highly qualified English language teachers
- ✓ Dedicated FL email account
- ✓ Access to the full suite of Google Apps for Education

THEMED PROJECT WEEKS

For 21st Century Students

THEME 2 DIGITAL STORYTELLING

✓ August 10th - August 14th

Students will discover different aspects of storytelling from ancient legends to modern series and online media. They will create their own interpretation of one of a well-known story, by scripting, recording and editing their own version for social media platforms such as Tik-Tok, YouTube or Instagram. At higher levels the story will be based on an original idea developed by the group.

THEME 4 NEWS & SOCIETY

✓ August 17th - August 21st

This exciting project is all about exploring students skills and qualities through completing a range of challenges in teams. This includes teaching classmates something they know and working together to turn ideas into new products, creating a promotional video is also part of the task. Those at the higher level will also develop a business plan and pitch their idea to the "investors".

THEME 1 IDENTITY & CULTURE

✓ August 3rd - August 7th

Students will work on projects which investigate what nationality really means and the differences and similarities between different cultures. At higher levels students will explore the role of history and the issues around identity which it raises.

THEME 3 FUTURE THINKING

✓ July 27th - July 31st

Future Thinking: This exciting project is all about helping students to develop the basic coding skills needed to control virtual robots and turn their ideas into a working computer programme. Those at the higher level will develop a working prototype, make a promotional video and pitch their idea to the "investors".
