

VAT Reverse Charge

Following the announcement and updates from HMRC, businesses linked to the building and construction industry will be seeing the following changes to their VAT:

The customer receiving the specified service has to pay the VAT to HMRC instead of the supplier. In turn the customer can recover the VAT, subject to the normal rules.

For the official dates on when to expect HMRC to introduce these changes, you can keep up to date through their website.

BEST PRACTICES

- 1 Check whether the reverse charge affects either your sales, purchases or both
- 2 Make sure your accounting systems and software are updated to deal with the reverse charge
- 3 Consider whether the change will have an impact on your cash flow
- 4 Ensure all your staff who are responsible for VAT accounting are familiar with the reverse charge

WHAT DO I DO IF I'M A:

CONTRACTOR

- 1 Review contracts with sub-contractors
- 2 Notify suppliers of the change

SUB-CONTRACTOR

- 1 Contact your customers to check their VAT & CIS status
- 2 Confirm if customers are the end user or an intermediary

SERVICE SUPPLIERS

VAT Reverse Charge **applies** to you

VAT Reverse Charge **does not apply** to you

constructing, altering, repairing, extending, demolishing or dismantling buildings

pipelines, industrial plant and installations for purposes of land drainage, coast protection

installing heating, lighting, air-conditioning, ventilation, power supply, drainage, sanitation, water supply or fire protection systems
