

## SKILLED, COMPASSIONATE CARE

Briarwood is the premier provider of skilled nursing care and rehabilitation in the Tri-City area and the first choice of referring physicians from Geneva hospitals. We are also the only facility to provide our skilled care and rehabilitation residents with private rooms and full baths. With our state-of-the-art treatment programs, multi-discipline professional staff, and nurturing environment, Briarwood consistently delivers high-quality restorative, therapeutic and rehabilitative care.

Briarwood encourages families to share time with their loved ones. We provide a family-friendly environment, convenient visiting hours and family support services.

## BRIARWOOD HEALTHCARE CENTER

# OUR REPUTATION SPEAKS FOR ITSELF

Briarwood Healthcare Center is recognized as one of the nation's best nursing homes by *U.S. News & World Report*, maintains a top "Five Star" quality rating from Medicare and Medicaid and has earned accreditation from the Commission on Accreditation of Rehabilitation Facilities (CARF).

## SKILLED NURSING CARE

In our skilled nursing care neighborhood, residents who require 24-hour attention receive personalized, compassionate care in a comfortable 'neighborhood-within-neighborhood' environment. Briarwood takes a resident-centered approach to care, working with each resident's personal physician to create a comprehensive therapeutic plan for his or her needs. Helping residents build overall wellness and quality of life is our top priority.

Medicare and Medicaid  
5-star rating

## SHORT-TERM REHABILITATION

Whether residents are recovering from surgery, illness or injury, Briarwood will get them back on their feet. Working with their personal physician, we'll create a rehabilitation plan personalized for their needs. We offer a comprehensive suite of rehabilitation therapies provided by our team of physical, occupational, speech, cardiac, respiratory and neurologic therapists. Trained in the latest therapeutic interventions they'll provide one-on-one care to help residents reach their highest level of function and let them resume their lives as quickly as possible.
