

The Art is Alive

Messum Museum is a wonderful place
There are dinosaurs and mummies and a rocket from space
But if you like painting you will
Have a surprise
Because the art is alive
It's alive, it's alive

CHORUS

The portraits are talking
The statues are walking
The art is alive
It's alive! It's alive!

You can learn about science and how things are done
You can play with exhibits and have lots of fun
But if you go to the gallery
You'll have a surprise
Because the art is alive
It's alive! It's alive

CHORUS x2

We are in this together
