This World is your Stage

You're standing on a stage
There's nothing on your page
The film you star in
Depends on you
All the pieces come into view

When you build up who you are
That's the key to go so far
There's greatness here inside of you
And everything will come through

-CHORUS-

This world is your stage
Let the spotlight shine on you
So remember to be true
This world is your stage
Go for glory
Tell your story
The world is waiting just for you

You can reach for the top
But the clock will never stop
Seize the day like it is your last
The sand is slipping away so fast

Believe the dreams you have inside
There's no time now left to hide
Your future could be so bright
Only you can do it right

-CHORUS-

From the very start
Our families play a part
As they light the way
With every word they say
What they decide for you
Will shape the things you do
They're standing proud and strong
When you sing your own song

-CHORUS x2-

We are by your side!
