

Stay at home with Kids&Us[®]

language school

Wings of learning

We are the kids from Kids&Us
We want to learn new languages
We've got to shape up
To capture what the world has
Mummy don't you worry
We've got the big antennae

We'll discover so many sounds
So many words as we fly around
The more we know
The stronger we grow
Our wings will guide us through this song

We're the little kids with magic antennae
We're the little kids with huge wings flapping

Once we were in a soft cocoon
The light was dim just like the moon
Now we're flying and getting smarter
Learning as we fly far, farther and farther
Play, play, play, play, play to grow
Learn, learn, learn immersed in this world
And all the world is an explosion
Of sounds and colours
All the colours of nature

We're the little kids with magic antennae
We're the little kids with huge wings flapping

It's all one love and we love to swing
Falling from the flowers and swimming in the wind
And we are so alive
While learning through emotions
English is the push to launch us into motion

We shoot off like arrows
Flying fast like sparrows
It's all one love and all one trust
When we fly along the path with Kids&Us

We're the little kids with magic antennae
We're the little kids with huge wings flapping

We are by your side!
