NetSuite Consulting Services

ennVee is a professional services firm with over three decade's worth of experience in the Enterprise Resource Planning (ERP) consulting space. Since inception, we have helped organizations successfully implement, roll-out, customize, and support their Oracle ERP environments.

Our ERP expertise enables us to translate business requirements into logical, component-based technical designs, and build customized solutions in NetSuite and associated systems that support business requirements and processes. This, combined with our mastery of the SuiteCloud Technology toolkit, ensures optimal customization, business process automation, and data integration solutions for organizations of all sizes.

Differentiators

ennVee offers NetSuite services via three best-of-breed delivery models — on-site/remote, off-shore, and hybrid. Our off-shore model is our key differentiator, and provides access to a team of NetSuite-certified employees at a fraction of the cost of on-site pricing. Our off-shore team works from our development center in Bangalore, India, and is available 24x7 or during your business and off-hours.
