

1-Week Oracle Discoverer Migration Assessment

Identifies all reports and builds a migration project plan in 1-week

ennVee's Discoverer migration assessment identifies every Oracle Discoverer report in your system by number of elements (files, folders, business areas, etc.), converts one report to your platform of choice, and builds a migration project plan with fixed-bid pricing and conversion timelines. Ultimately, our assessment helps you gain a better understanding of the time, cost, and effort involved in replacing Oracle Discoverer.

Assessment Deliverables

List of all Discoverer reports and associated objects

- All business areas, workbooks, files, folders, etc.
- Total number of reports and elements by complexity
- Total amount of time (hours) required to migrate
- Estimated amount of effort to migrate each report

Migration Project Plan

- Scope
- Milestones
- Conversion Timelines
- Resource Plan
- Rationalization
- Fixed-bid price to migrate to using ennVee's services

Proof-of-Concept

- One Discoverer report converted to your platform of choice (Power BI, Tableau, Cognos, MS SSRS, APEX, etc.)
