- > Develop training strategies with clients to maximize EPM/BI investments
- > Continuity of approach and methodology with training in all implementation phases
- > Certified professional instructors with years of implementation experience with multiple products
- > Customize training delivery approaches to different stakeholder communities
- > Partner with implementation team to deliver more contextual training

Alithya offers a full range of training on the Oracle EPM and BI platform. As a Keyteach partner, an award-winning Oracle partner, and global Oracle Hyperion training organization, Alithya delivers training at various designated training facilities as well as at client sites.

Alithya delivers training to suit every client's needs. In addition to providing training using standard courseware and materials, we deliver custom training designed specifically around a client's application and business requirements. We also tailor training curriculums to help organizations maximize their Oracle EPM and BI investments.

Alithya also offers virtual classroom training as well as e-learning utilizing tools such as Hyperion User Productivity Kit (UPK).
