

## TOTAL HEALTH PACKAGE

### WHY IS PREVENTIVE CARE SO IMPORTANT FOR MY PET?

1. Preventive Screening: **identify underlying health** issues that might be causing your pet pain/discomfort and affect quality of life. Most problems that are identified early can be easily corrected to improve quality and quantity of life.
2. Provides annual **intestinal parasite and heartworm** screening to protect your pet and your family from parasites.
3. Preventive screening provides a **baseline** with future results can be compared.
4. **Peace of Mind**

*Studies have shown that 39.5% of senior dogs and 65% of senior cats (>7 yrs old) that appear healthy to their owners and have a normal physical exam, have significant abnormalities on their lab work.*

### The Package Includes:

- Physical Examination and all vaccinations that are indicated (*excluding rattlesnake vaccine*)
- Complete Organ Function Tests (28 chemistries)
  - ✓ Kidney (SDMA), Liver, Electrolytes, Diabetes, Pancreas (spec cpl), etc.
  - ✓ Endocrine and Metabolic Disease Screening
