

Cutting-Edge Secure Digital Radio Hardware and Software From RapidM Being Offered in USA

PRESS RELEASE - FEB 23, 2016 10:00 EST

Specialty electronics product distributor Cyntony Corporation and digital radio modem manufacturer Rapid Mobile jointly announce the appointment of Cyntony as non-exclusive reseller of tactical, governmental and naval/strategic secure digital radio communications products in the USA.

Cyntony Corporation, a specialty electronics and antenna product distribution company, and Rapid Mobile (Pty) Ltd, a leading manufacturer of digital HF, VHF and UHF radio technology for defense and government communication applications, jointly announced today the appointment of Cyntony as a value added reseller of RapidM tactical and governmental products in the USA.

"Cyntony is pleased to extend the reach of RapidM and provide our customers communications products that complement our antenna and mast offerings," says David A. Moschella, Founder and President of Cyntony. "We are excited to market and resell the robust, proven products of RapidM, that are designed, manufactured and supported by their world-class engineering team and excellent operations staff."

About Cyntony:

Cyntony Corporation, founded in 2011, distributes specialized electronics and antenna products focused on the electronic warfare and tactical communications markets. Cyntony is at the vanguard of a 21st century reality of conflict and security: those who dominate the electromagnetic spectrum win. Discover scores of products at www.cyntony.com.
