
Imgur Deploys Foxpass to Automate LDAP and Security Best Practices at Scale

- **Key Facts:**

With built-in automation scripts, we rolled out Foxpass in a single day. Their team helped with custom integration that made the entire implementation process fast and painless.

Maintaining security best practices with Foxpass is easy and intuitive.

The Foxpass team was very easy to work with and provided fast and responsive support.

- **The Challenge:**

Imgur's team was rapidly growing and they were feeling the pain of manually managing accounts in-house and maintaining security best practices for user access to their infrastructure. The team was spending a lot of valuable time and resources on manually managing authentication to servers, doing user provisioning and deprovisioning, and resetting passwords. They were looking for a solution that would help them save time by automating access control to their resources and helping them implement security best practices at scale.

- **The Solution:**

Michael Cummings, Principal Devops Engineer, says "I knew what features I was looking for in a solution and Foxpass was the right choice to automate our LDAP as well as make access control easy to manage for our growing team." Foxpass delivered a full suite of features that automated server access and RADIUS management for our VPN, as well as integration into our ticketing system. As the Imgur IT team is continuing to expand, Foxpass is making it easy to manage access to their infrastructure.

- Benefits:

Saved time for IT

Foxpass automated LDAP and RADIUS management, saving IT a lot of time and burden on managing them manually.

Improved security best practices

Foxpass is built around security best practices, making it easy and fast to provision and deprovision users and create role specific access to infrastructure resources.

Scaled with ease

The Imgur team was growing and consuming more services, Foxpass enabled access management to be fast and easy, so they can spend their time on building and scaling the business.

- About Imgur:
