# AgileCraft® Datasheet
TEAM TOOL CONNECTORS
Powered by T-Rex

AgileCraft

AgileCraft's T-Rex Connectors integrate your team data seamlessly with these popular platforms:

- Atlassian Jira
- Microsoft Azure (TFS)
- CA Agile Central
- Collabnet VersionOne
- GitLab
- IBM Rational Team Concert
- And more...

Only AgileCraft's T-Rex technology helps you make your integrated team data <u>better</u>.

At AgileCraft, our mission is to seamlessly connect teams and their work items up to programs and portfolios. Based on the platform you are using, we offer varying options that go beyond simply mapping fields and transferring data, and include logic to normalize anomalies and correct for human error. We monitor performance to ensure a reliable, timely, accurate bi-directional synchronization.

OUR UNIQUE APPROACH TO INTEGRATION

SPECIALIZED DATA HANDLING

Consistency is important. We offer features that detect anomalies and sync options that allow the connector to handle inconsistent practices. Our integration fills in the gaps where data is missing.

EASY CONFIGURATION

We've worked with many customers to create simple, streamlined integrations with the most popular team tools on the market.

FLEXIBLE

We offer many options beyond simple field mapping that allow you to customize our connectors to support your processes.

SINGLE VENDOR

Our natively developed connectors are built in-house and deliver functionality that deeply integrates with our solution. We approach each tool integration individually and pro-actively monitor for any changes to their API's.

COST EFFECTIVE

Each license package includes one team tool connector installation, completely free of charge for the lifetime of your contract. Additional team tool connectors are competitively priced.

MARKET PROVEN

Our connectors are proven to work at scale, and perform robustly in the long term. We have many enterprise customers that have used our connectors with thousands of users for years.

At AgileCraft, we strive to provide ongoing native support for the most popular team tools in the industry. When you integrate your team with AgileCraft, your tools are our tools, and we will take good care of your data. We will ensure your synchronized team data is always reliable, accurate, up to date and cleaned for errors. Systems and humans make mistakes, and we endeavor to detect and correct for these.

AgileCraft at a Glance

AgileCraft® delivers the most comprehensive software solution available for scaling Agile to the enterprise. AgileCraft transforms the way organizations enable and manage Agile productivity across their enterprise, portfolios, programs, and teams by aligning business strategy with technical execution. The AgileCraft platform combines sophisticated planning, analysis, forecasting, and visualization with robust, multi-level collaboration and management. Learn more today at agilecraft.com/connector.
