

AgileCraft provides a fully integrated, flexible enterprise time tracking platform that allows organizations to collect, manage, and track time across a globally distributed workforce while remaining compliant with technical accounting regulations.

The AgileCraft Difference

AgileCraft provides an enterprise time tracking platform allowing organizations to collect, manage, and track time across a globally distributed enterprise agile workforce. Reduce cost and improve accuracy managing all aspects of people, work, and time in a single system.

Key Benefits

Reduce costs and improve accuracy in billing

Manage people, work, and time in a simple, yet comprehensive system

Support technical accounting compliance while enabling agile at scale

Key Features

- Manage blended rates across employees, regions, and roles
- Enable end-to-end workflows with alerts and notifications to manage compliance
- Configure dashboards and access a rich set of exportable reports and a full API
- Localize calendars for regional holidays and work hours
- Track time via mobile devices to simplify time capture and reporting

AgileCraft® Datasheet Time Tracking Add-On

Job Code Rollup & Project Cost Insight

Our enterprise time tracking allows you to stay close to your budget and time spent, as well as review and align your project costs through different filters of job codes, roles, or projects.

Flexible & Custom Business Process

Whether you have strict limits on overtime, different bill rates by classification, or blended resources working across multiple projects, our system shapes around any unique business process.

Integrated, Automated Approval & Workflow

Our time and attendance records is easily rolled out to integrate with your existing tools, giving you speed and ability to capture, plan, and report across your enterprise work.

Governance

Give your organization full visibility into staff that are billable, on PTO, or out on leave.

Mobile Time Tracking

Full-time, part-time, and remote consultants, distributed in the field, can use mobile time tracking to simplify time capture.

Enterprise Multinational Workflows

With teams in different time zones, configure your timecard submissions so that your groups are always in compliance.
