

EXCEPTIONAL SAFETY MEASURES

SOCIAL (PHYSICAL) DISTANCING

- The CDC recommends a 6 foot social (physical) distancing as one of the best tools we have to avoid being exposed to this virus and slowing its spread locally and across the country and world.
- Employee will limit physical interaction and strictly adhere to the 6 foot distancing rule, regardless of other measures this is the primary behavior for prevention.
- Virtual team check-ins daily
- Reconfigured workspace to adhere to 6' distancing standards.

INCREASED PPE

- Continue to use gloves on all jobs and remove them once work is complete. If you work in the shop, please dispose of gloves before going inside an office or to a break room.
- The procurement team is sourcing masks for all and will have information to your managers soon. The video sent by John Winter is a way to create a bandana to provide masks (see attachment).
- Sanitize all equipment before and after work is completed.
- All tools and shop equipment should be sanitized daily.
