

CSIC

Cybersecurity Standards Implementation Conference

Building a Cybersecurity Culture: People · Processes · Technology

CALL FOR ABSTRACTS

Submission Guidelines

Abstracts should be 200 words or less and describe what the non-commercial presentation will cover. Slide presentation materials must be provided in electronic format (MS PowerPoint) prior to the conference for review and approval. A publication release form will also be required. If your abstract is accepted and you agree to submit a presentation, you are also agreeing to register and present at the 2020 ISA Cybersecurity Standards Implementation Conference.

Abstract
Acceptance..... 10 February 2020
Draft Presentations
Due..... 16 March 2020
Reviewer's Comments
to Authors 30 March 2020
Final Presentations
Due..... 13 April 2020
Speaker Registration..... 27 April 2020

Join the International Society of Automation (ISA), the thought-leader and developer of the world's only consensus-based industrial cybersecurity standards (ISA/IEC 62443), for a rapid-fire, elevated two-day conference event, focusing on expert discussions surrounding awareness and solutions for organizational threats/vulnerabilities with the implementation of a standards-base cybersecurity program.

PROPOSED TOPICS

- Industry/Organization Change Management
- Specific Defensive Measures Implemented Through People and Processes
- System Design and Architecture
- Risk Assessment and Prioritization Determination
- Implementing a Security Development Lifecycle
- Relevant Product/Personnel Certificate and Certification Programs
- Cybersecurity in Non-Process (Traditional) Industry Environments
