

## Instructions for Modification of Easi-Span™ Specifications

1. The following specifications on the disk as file name Easi-Span spec's... can have dimensions changed in paragraph 1.03, to be either 20', 24', 30' or 40' wide x 20' long or greater (in 10'-0" increments).

Example:

1.03 Design Requirements

Exterior: 20' x 20' x 10'-5"

Interior: 19'-4" x 19'-4" x 9'-0"

You can modify specifications to read:

1.03 Design Requirements

Exterior: 24' x 60'\* x 10'-5"

Interior: 23'-4" x 59'-4" x 9'-0"

\*Must be divisible by 10'-0".

(Interior height can be changed in 1'-0" increments up to 12'-0". For taller interior heights, check with Easi-Set Industries, ESI or licensed manufacturer of Easi-Set Buildings.)

2. Choose whether building will be assembled on contractor's poured-in-place slab or precast floor panels and include Paragraph 3.01 or 3.02 as appropriate.
3. Modify door hardware if necessary
4. If building does not need to have expandability feature, eliminate paragraph 1.03.C.1.
5. Locate all openings on elevation sketch provided or on similar sketch for larger buildings.
6. Fax to ESI or licensed manufacturer of Easi-Set Buildings for confirmation of structural integrity and wall thickness.
7. If additional details need to be addressed, attach specifiers' worksheet.
