

Ocularis 5

v5.3

At-A-Glance

PRO

Ocularis Professional video management for small to medium single- and multi-site applications

- Compatible with Ocularis 4.x and earlier
- No need to license camera MAC addresses
- Fast and easy installation and configuration

ENT

Ocularis Enterprise surveillance video management for centrally managed mid- to large-scale installations

- Smart Camera Drivers for top camera manufacturers
- Event Fusion for intelligent situational awareness
- Simple StayCURRENT software upgrade plan

ULT

Ocularis Ultimate video management with failover and redundancy for large and demanding environments

OnSSI Smarter Surveillance for a Safer World

Ocularis 5

v5.3

Key Features and Benefits

Powerful Features

- Migration tools for an easy transition from Ocularis legacy products ■
- Camera tampering alerts and scene change detection events ■
- Camera priority recording setting ■
- Alarm recording with an increased retention period ■
- No licensing requirements for I/O units
- Recorder manager partitioning
- Built-in camera manager redundancy
- New Recorder failover modes and redundancy (ULT/ENT only)
- Automatic daily configuration backup ■
- Advanced, multi-region, server-based motion detection ■
- Audio playback and export
- Automatic Recorder patch updates ■

Network Security

- End-to-end video data encryption

Web Application

- View multiple simultaneous live or recorded camera streams on your local network or remotely
- Quick deployment with no Client software installation
- Supports a high number of concurrent users

Mobile Application

- View and handle alerts from the field
- Receive push notifications for events
- Control PTZ Cameras
- Supports a high number of concurrent users
- Stream video captured from your mobile device and view from any Ocularis Client (Android only)
- View camera locations and streams with assigned GPS coordinates on an online map (Android only)
- See mobile operator locations in Ocularis Client Maps and view their streaming cameras (Android only)

Map & VideoWall Interface

- Multi-level interactive map
- Video events and notifications
- Manage local and remote VideoWalls
- Video collaboration and operator view monitoring with VideoWall option ■

Efficient Hardware Utilization

- Automatic hard drive optimization and load balancing ■
- Lower bandwidth requirements
- Supports camera Multistreaming
- Unlimited camera count per server (ULT/ENT only)

Critical Camera Failover

- Switches to a designated camera if the stream to the primary camera is compromised ■
- Maintains continuous surveillance of critical areas, even if a camera fails ■

Unmatched Value

Easy Licensing

- Licensing for Base and video streams only – no MAC address licensing required
- Customer owns the licenses for the life of the system with no annual fees, and cameras may be changed at anytime
- Recommended, but not mandatory, training certification
- 1-year StayCURRENT plan option with fixed dates and no cost when adding licenses ■

Channel Partner Program

- Sold only through OnSSI Authorized Channel Partners
- Premier Partner Program with exclusive benefits

Easy Migration Path

- OnSSI customers without a valid StayCURRENT can receive FREE Base and Client licenses when adding camera licenses
- OnSSI customers with a valid StayCURRENT can upgrade their Base, Client, and Recorder at any time

Mix & Match

- Cost savings to the customer, while tailoring the software to meet the needs of their system ■
- One Ocularis 5 Base integrates legacy 4.x and earlier Recorders with the new Ocularis 5 Recorders ■

FREE Tech Support

- Technical Support Hotline: 845.732.7979
- 24/7 Online access to:
 - Guides/manuals/how-to videos
 - Hardware & storage calculator
 - Support app to access spec sheets, demo videos and more

■ Unique to Ocularis
