**AVALON | ANOMALI™**

Avalon + Anomali

A Perfect Union

None of us fight the battle against today's adversaries alone. Working together, the integration of Anomali and Avalon empower your security and intelligence teams to easily visualize threat intelligence from multiple sources in a single, interactive platform, investigate threats in real-time, and efficiently deliver the finished intelligence you need. Take all the actionable intelligence from Anomali and allow Avalon to visualize and report on it in a way that has not been done before.
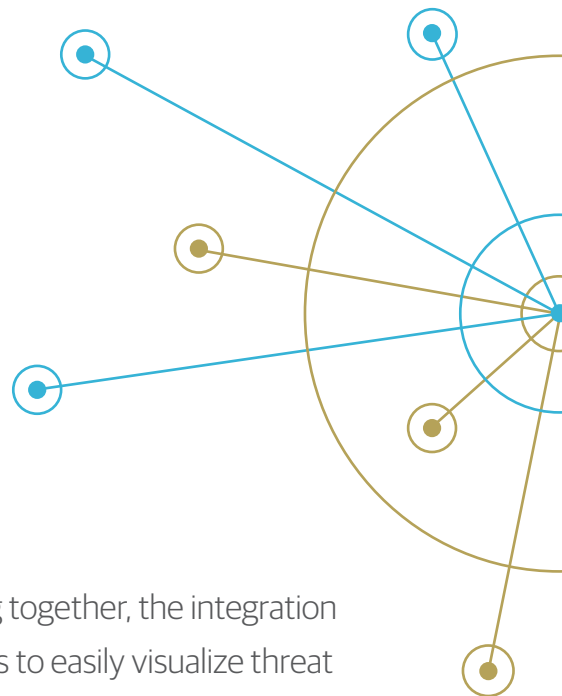

Integration Highlights

Integrate Diverse Data Sources

Conduct investigations more efficiently by bringing all data sources together and automating common analyst queries.

Interact in Real-Time

Enable real-time information sharing and collaboration by creating trusted groups within your organization or across your industry.

Visualize Threats and Connections

Quickly visualize and enrich threat data from Anomali and all threat intelligence sources in a single interactive workspace.

Deliver Results

Reduce time spent on manual administrative tasks by easily creating, reviewing and delivering finished intelligence directly from Avalon.

Preserve Investigations

Create a centralized knowledge repository to maintain investigative intelligence that can be utilized for future investigations.

Integration Benefits

- Quickly unify, visualize and enrich threat intelligence in a single workspace to better understand data relationships

- Increase analysis and reporting efficiency - recouping 200+ hours per analyst per year

- Easily deliver the right finished intelligence to the right person in the right format

- Enable analysts to focus on what they do best - security - instead of administrative tasks

- Preserve past analyses to enrich future investigations.

Avalon Simplifies Security Analysis & Reporting – Integrating All Tools & Data in One Place

Avalon integrates activities completed during the analysts workflow, both inside and outside of Avalon, and helps security teams spend less time on manual, time-consuming administrative tasks and more time on security.
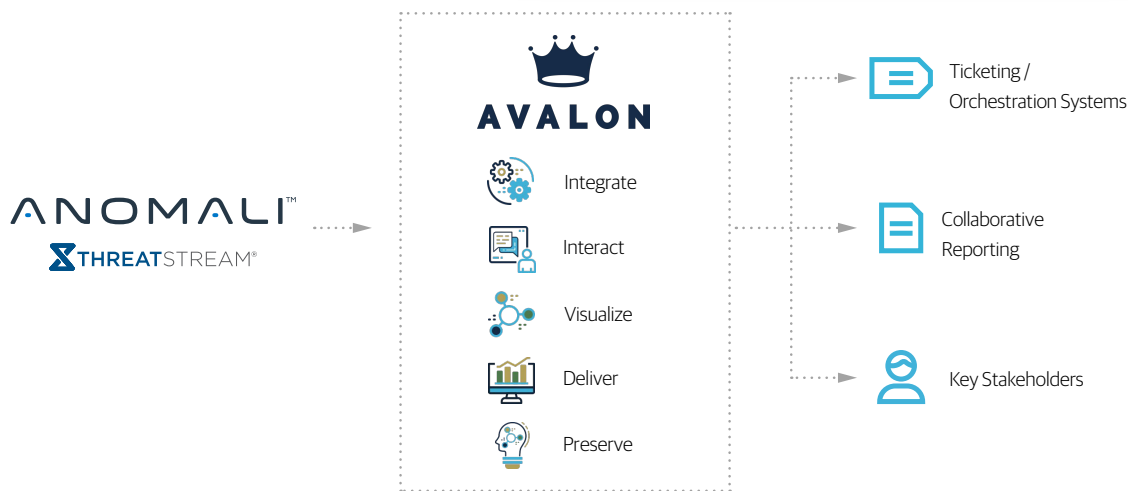

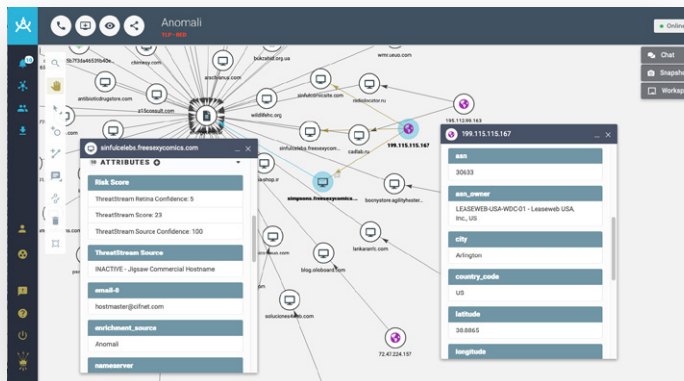

King and Union

King and Union enables security teams to easily create and deliver the right intelligence to the right person across all levels of their organization by unifying data from multiple tools and results from investigations into a single cyber analysis delivery platform. With our platform, Avalon, security teams can quickly visualize threat data and investigate together in real time, and once complete, efficiently create and deliver the finished intelligence required to key stakeholders. Avalon reduces the time on manual, administrative tasks, leaving analysts more time to focus on security, and empowers organizations to take full advantage of the security investments they've made - in people, information and technology.

Anomali

Anomali® detects adversaries and tells you who they are. Organizations rely on the Anomali Threat Platform to detect threats, understand adversaries, and respond effectively. Anomali arms security teams with machine learning optimized threat intelligence and identifies hidden threats targeting their environments. The platform enables organizations to collaborate and share threat information among trusted communities and is the most widely adopted platform for ISACs and leading enterprises worldwide.
