

Avalon + Farsight

A Perfect Union

None of us fight the battle against today's adversaries alone. Working together, our Avalon analysis delivery platform and Farsight Security DNSDB® deliver a seamless integration experience focused on collaboration, automation, and visualization. Easily enrich threat data with Farsight's comprehensive DNS intelligence service and then visualize, investigate, and efficiently deliver the finished intelligence you need in a single, interactive Avalon workspace.

Integration Highlights

Integrate Diverse Data Sources

Conduct investigations efficiently by bringing all data sources together and automating common analyst workflows and data import/export capabilities.

Interact in Real-Time

Enable real-time collaboration across teams for modern investigations.

Visualize Threats and Connections

Quickly visualize and enrich threat data from Farsight to easily decipher data relationships.

Deliver Results

Reduce time spent on manual administrative tasks by easily creating, reviewing and delivering finished intelligence directly from Avalon.

Preserve Investigations

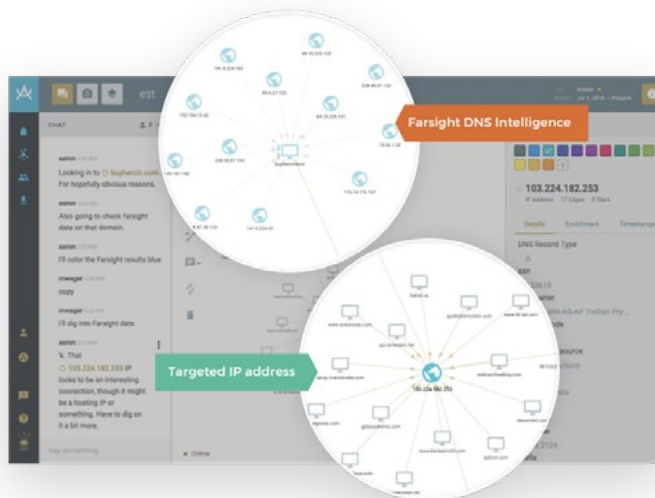

Create a centralized knowledge repository to maintain investigative intelligence that can be utilized for future investigations.

Farsight Integration Benefits

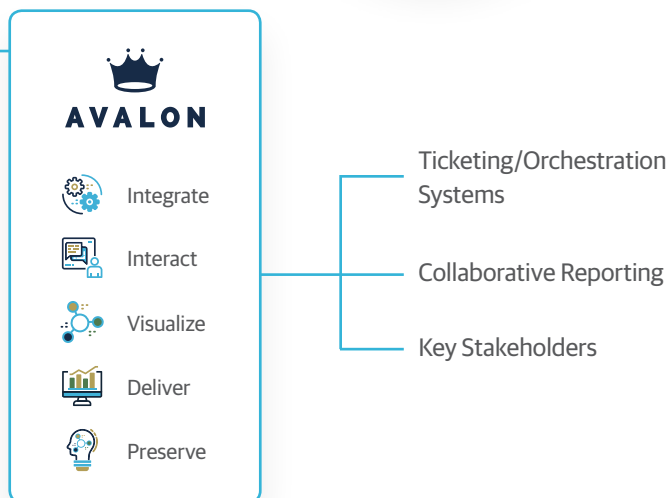

- Accelerate incident response by quickly exposing the entire miscreant network by pivoting between domains and IPs to find associated internet assets.
- Easily enrich existing indicators of compromise with contextual data.
- Examine real-time and historical resolution lookups, going back to 2010.
- Perform time-based analysis to view results that occurred within a particular period.

Simplify Security Analysis & Reporting - Integrating All Tools & Data in One Place

Avalon integrates activities completed during the analysts workflow, both inside and outside of Avalon, and helps security teams spend less time on manual, time-consuming administrative tasks and more time on security.

FARSIGHT SECURITY

King and Union

King and Union enables security teams to easily create and deliver the right intelligence to the right person across all levels of their organization by unifying data from multiple tools and results from investigations into a single cyber analysis delivery platform. With our platform, Avalon, security teams can quickly visualize threat data and investigate together in real time, and once complete, efficiently create and deliver the finished intelligence required to key stakeholders. Avalon reduces the time on manual, administrative tasks, leaving analysts more time to focus on security, and empowers organizations to take full advantage of the security investments they've made - in people, information and technology.

About Farsight Security, Inc.

Farsight Security®, Inc. is the world's largest provider of historical and real-time DNS intelligence solutions. We enable security teams to qualify, enrich and correlate all sources of threat data and ultimately save time when it is most critical - during an attack or investigation. Our solutions provide enterprise, government and security industry personnel and platforms with unmatched global visibility, context and response. Farsight Security is headquartered in San Mateo, California, USA.
