

FireEye + Avalon

A Perfect Union

None of us fight the battle against today's adversaries alone. Working together, FireEye and Avalon empower security and intelligence teams to easily visualize threat data from multiple sources in a single, interactive platform, investigate threats in real-time, and efficiently deliver the finished intelligence you need. Take all the actionable intelligence from FireEye and allow Avalon to visualize and report on it in a way that has not been done before.

Integration Highlights

INTERACT

Bring analysts together in trusted groups to outsmart your adversaries, together.

VISUALIZE THREATS

Visualize and enrich threat data from both FireEye and all threat intelligence sources in a single interactive workspace.

DELIVER RESULTS

Reduce time spent on manual administrative tasks by easily creating, reviewing and delivering finished intelligence directly from Avalon.

PRESERVE INVESTIGATIONS

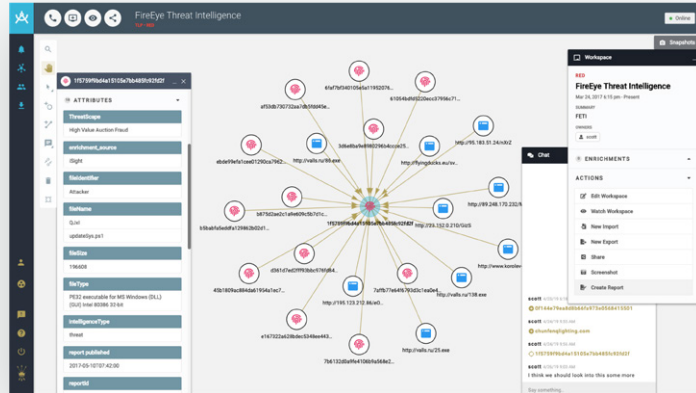

Create a centralized knowledge repository to maintain investigative intelligence that can be utilized for future investigations.

Integration Benefits

- Quickly unify, visualize and enrich threat intelligence in a single interactive workspace to better understand data relationships
- Increase analysis and reporting efficiency - recouping 200+ hours per analyst per year
- Easily deliver the right finished intelligence to the right person in the right format
- Enable analysts to focus on what they do best - security - instead of administrative tasks
- Preserve past analyses to enrich future investigations.

Avalon Simplifies Security Analysis & Reporting - Integrating All Tools & Data in One Place

Avalon integrates activities completed during the analysts workflow, both inside and outside of Avalon, and helps security teams spend less time on manual, time-consuming administrative tasks and more time on security.

King and Union

King and Union enables security teams to easily create and deliver the right intelligence to the right person across all levels of their organization by unifying data from multiple tools and results from investigations into a single cyber analysis delivery platform. With our platform, Avalon, security teams can quickly visualize threat data and investigate together in real time, and once complete, efficiently create and deliver the finished intelligence required to key stakeholders. Avalon reduces the time on manual, administrative tasks, leaving analysts more time to focus on security, and empowers organizations to take full advantage of the security investments they've made - in people, information and technology.

FireEye

FireEye offers a single platform that blends innovative security technologies, nation-state grade threat intelligence, and world-renowned Mandiant® consulting. Working as a seamless, scalable extension of customer security operations, FireEye eliminates the complexity and burden of cyber security for organizations struggling to prepare for, prevent, and respond to cyber attacks.
