Safe-Sender Guidelines

Email Clients in this section will not allow you to add contacts to a safe sender list prior to receiving a message. In this case, you will need to locate your email in the Junk Mail folder and then follow the directions to mark it as safe.

Apple Mail (Mobile)

- 1. Go to your Junk folder.
- 2. Locate the email from Lab Manager.
- 3. Open the email the **click on the sender name** that appears next to the word From:
- 4. Click Create New Contact.
- 5. Click **Done** to save.
- 6. Click **Done** again to return to the email.

Mac Mail

- 1. Open Mail.
- 2. Go to Preferences.
- 3. Go to Junk Mail from the menu list along the top of your screen.
- 4. Make sure Address Book, and Previous Recipients options are checked.
- 5. Exit the Preferences Window.
- 6. Add @labmanger.com to your Address Book.app

Mozilla Thunderbird

- 1. Put Lab Manager in your address book.
- 2. Go to Tools > Account Settings > Junk Settings
- 3. Select: enable adaptive junk mail controls for this account
- 4. Under 'do not automatically mark mail as junk if the sender is in:'
 - i. Select the address book
 - ii. Select 'Move new junk messages to'
 - If pop select: Junk folder on mail account name
 - If IMAP select 'Other' and Junk / Spam folder on imap mail account.
 - iii. Click on **OK** to save changes.

For more information, click here.

Outlook App for iOS and Android

- 1. Go to the People tab.
- 2. Tap the + sign.
- 3. Add Lab Manager's contact information.
