UNIFIED COMMUNICATIONS, TEAM MESSAGING, FILE SYNC & SHARE

PanTerra Networks is a unified cloud service provider, delivering its family of secure, ultra-reliable, future-proof solution for SMB and Mid-market enterprises. PanTerra includes Streams, its business-class, HIPAA secure, ultra-reliable, futureproof unified cloud service that can be deployed world-wide.

Streams includes unified communications and team messaging infrastructure with a next-generation cloud-

based solution and **Smart-Box**, its HIPAA secure, enterprise cloud file storage, sync & share service.

With PanTerra's unified cloud service solution, enterprises gain the highest levels of security, scalability, reliability, availability, quality of service, service level agreement and support available, while significantly lowering their total cost of operations and IT administration complexities.

PanTerra

How do you work today? Using five, six, or even seven different service providers? Tired of being forced to work their way? Sometimes, customers want to speak with a real person. Other times, you just need to share a file fast. Or, maybe you have a geographically disbursed team that needs an easy way to collaborate. Maybe you need something that supports both real-time and time-shifted communications. There's got to be a better way to work. Introducing Streams™, a new way to work. Use Streams to communicate in real-time. Make or take audio or video calls or instant message anyone with pictures, videos or text. Use Streams to collaborate with teams. Share your desktop, conduct a video conference or broadcast a full blown web meeting.

Share files with team members. Need to share files securely, use HIPAA compliant Streams to quickly share files and folders to anyone, any-

where. Sync all your files across all your devices. Streams lets you work your way.

PBX integrated. The Streams interface is both simple and powerful with a fully integrated PBX, routing all your calls to any of your devices. Instant messaging with real time presence provides quick communication. Conduct video conferencing, deskshare, or full web meetings with ease.

Increased productivity for contact center agents. Need Call Center functionality with real-time analytics, it's built in. And, a HIPAA secure file store, sync and share service is fully integrated into Streams, allowing you to securely and easily share content.

Team collaboration when and where you need it. The real power of Streams is its team collaboration capabilities. Streams allows you to easily create team-streams where you

can share any content, text, pictures, video and even files and folders. With built in social media features such as commenting, likes, and re-sharing, teams can quickly receive real-time feedback. With the built in communication features such as full PBX, video conferencing, and web meetings, Streams allows you to instantly exchange ideas in real-time. With Streams, your teams can collaborate any way they want.

Work your way. From making the sale faster - to out-marketing your competition, from simplifying your receptionist's life - to turbo charging your CEO, from empowering your road warriors - to strengthening call center agents, Streams lets you work your way. Faster - Better - Simpler!
