UNIFIED COMMUNICATIONS, TEAM MESSAGING, FILE SYNC & SHARE

PanTerra Networks is a unified cloud service provider, delivering its family of secure, ultra-reliable, future-proof solution for SMB and Mid-market enterprises. PanTerra includes Streams, its business-class, HIPAA secure, ultra-reliable, futureproof unified cloud service that can be deployed world-wide.

Streams includes unified communications and team messaging infrastructure with a next-generation cloud-

based solution and **Smart-Box**, its HIPAA secure, enterprise cloud file storage, sync & share service.

With PanTerra's unified cloud service solution, enterprises gain the highest levels of security, scalability, reliability, availability, quality of service, service level agreement and support available, while significantly lowering their total cost of operations and IT administration complexities.

PanTerra

Dealing with the complexities of a business communication network with multiple offices, subsidiaries or remote employees is no easy task. Traditional voice solutions require multiple products, applications and services per location and remote users are still left with limitations. Add to that all the other communications that we use on a daily basis to maintain network synchronicity and the costs and headaches are compounded.

Enter PanTerra Networks where business communications to us is everything unified regardless of location including digital business voice, video, fax, email, contact, billing, file sharing, calendar, chat, instant message, presence, conferencing, webinars and desktop sharing from one interface.

With PanTerra, multiple office support is not a definition with physical demands or limitations; it is simply a configuration setting. Complete freedom to present your customers with your

best representation, and route communications to employees to best suit your business needs. Our multi-site billing detail allows you to break down costs per user/per site so you have complete visibility for usage, plans and activity. If a summary is all you require, simply change a setting to the consolidated view. Where the PanTerra advantage really steps in, is our futureproof service assurance that provides updates, features and lifetime support 24/7 regardless of location.

Eliminate CAPEX Costs. With PanTerra's service, buying CAPEX for multiple locations is a thing of the past. PanTerra services run in a reliable data center and are delivered to you "on-demand" through your existing data network. And with PanTerra, you not only get all the PBX services you need, but many more communications services you already depend on, like file sharing, email, web

meeting, desktop sharing, audio conferencing, secure IM messaging, just to name a few.

Unify Communications. At PanTerra Networks, we solve the communications dilemma by unifying all of your communications needs. PanTerra provides a complete one-stop-shop for all of the communication, collaboration, file sharing, contact center and messaging services required to run your company.

- Connect all of your users through one, unified communications platform
- Collaborate with co-workers around the globe
- Consolidate your voice traffic, and manage your globally distributed telephony solution through one simple interface
- One bill regardless of multiple locations
