SMARTBOX

Healthcare Industry Vertical

PanTerra Networks is a unified cloud service provider, delivering its family of secure, ultra-reliable, future-proof solution for SMB and Mid-market enterprises. PanTerra includes **Streams**, a complete unified communications and collaboration service. PanTerra also includes **SmartBox**, the world's first communications-enabled file sync & share service. All PanTerra services can be self-managed by customers or authorized partners, or subscribed to as a fully-managed service with **Sentra-Cloud**. With PanTerra's unified cloud service solution, enterprises gain the highest levels of security, scalability, reliability, availability, quality of service, service level agreement and support available, while significantly lowering their total cost of operations and IT administration complexities.

Maintaining HIPAA compliance can be cumbersome and, oftentimes, becomes a source of disorganization. Patient confidentiality must be maintained to avoid costly lawsuits. Also, keeping insurance records, patient communications, and Medicare data up-to-date can seem daunting and unachievable. Let SmartBox save you time and money with the ability to store all types and sizes of files (.doc, .png, .xls, .mp3) in a safe and secure place. Communication that's as flexible and as safe as your industry demands.

Accessible on any device - anywhere. Take SmartBox with you on rounds at the hospital, a patient's home, at the clinic, or anywhere you need to have access to all of your important documents and patient information. And, when you're in the office, every examination room has access through a desktop browser or on any mobile device.

Independent device syncing. Take SmartBox with you to your satellite clinic and office and have all of your patients' files available and accessible whenever you need them on the device to which you choose to sync.

Communications all in one location. Keeping communications available and organized is a real time saver when you need to stay apprised of urgent and critical information from and about your patients. With SmartBox, you can record and save patient consultations, voicemails, emails, and instant messages for later review.

Secure and Confidential Access. Patient records – health issues, personal information, and family records – are sensitive and require the utmost care and protection. With SmartBox, you can be certain that you are maintaining HIPAA compliancy with our encryption technology and 2-phase authentication process. Keep patient records private and control who has access by setting up password protection and global or individual notifications.

The SmartBox Advantage. SmartBox is designed with the features every business requires that seamlessly integrates file sharing, communications and collaboration together to improve productivity, responsiveness and information flow between employees, offices and clients. SmartBox was built with you in mind.
