CLOUD

- Cloud Roadmapping
- Cloud Orchestration
- Cloud Migrations
- Cloud Hosting
- Cloud Helpdesk
- Cloud Services
- Cloud Management

Modernize and Optimize Your Enterprise Applications

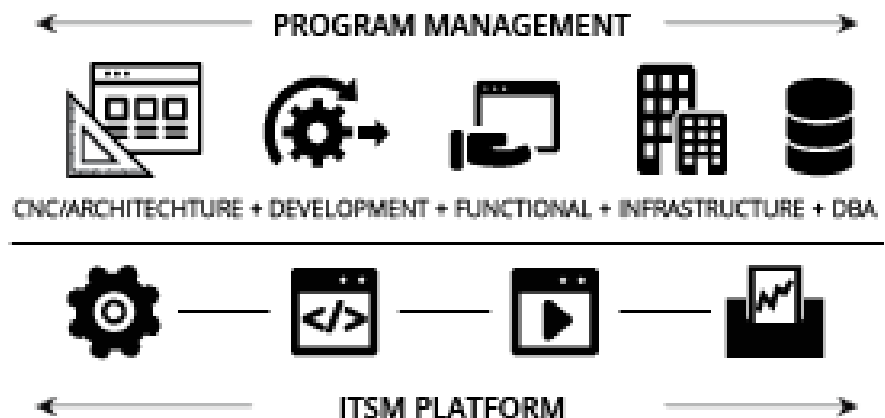

ManageForce is a Cloud, ERP and Data Solutions Provider that leverages the power and simplicity of the cloud to transform operational data and improve business agility and performance.

Unlike traditional consulting firms we provide a holistic view of enterprise IT, structured solutions, and the ongoing support businesses need to thrive.

The ManageForce Difference

We offer a complete continuum of managed services, professional services, and cloud services that can be bundled and priced based on your needs.

You always receive quality support from the best database, applications, and cloud experts in the industry who hold over 15+ years of experience. We take pride in our unmatched communication skills as well as our ability to become peripheral members of your team.

Comprehensive ITSM Platform

An IT Service Management (ITSM) Platform offers a more structured approach to IT management. We leverage a comprehensive ITSM solution that incorporates the necessary tools with processes, SOPs, SLAs, and governance to fully capitalize on the value of each one.
