

Monetum brings together legacy payment system and crypto in an all-in-one solution

Monetum is a first-mover to present a blockchain based **FIAT + CRYPTO + METALS** wallet combined with a regulated Smart-Exchange running on the blockchain.

Monetum will simplify the use of cryptocurrencies for everyday payments, as simple as cash just better.

Monetum interlinks all funds in a single wallet.

Everybody will be able to pay and receive in crypto and to transfer crypto-assets easily back to FIAT funds.

Low fees, zero hassle.

Our sister-brand runs an existing business that provides a successful and licensed FIAT-payment solution.

Resources collected will fund the roll out of this cost effective, secure and fast payment solution on a broad scale around the globe.

Specially targeting emerging markets, focusing on E-commerce businesses and final consumers.

Monetum - Use Cases

Micropayments made easier

- Buy coffee with Monetum
- Full transaction completed and money transferred to the vendor before the first sip.

Traditional payments, just faster.
