

# Nest Learning Thermostat Programs itself. Then pays for itself.

## Learns your schedule.

No more programming. With Auto-Schedule, Nest learns from you and programs itself.

## Control from your phone.

Change the temperature from anywhere using your phone, tablet or laptop.

## Helps save energy.

Nest can use sensors, algorithms and even your phone's location to save energy when no one's home.

In independent studies, the Nest Thermostat saved an average of 10% to 12% on heating bills and 15% on cooling bills. We've estimated average savings of \$131 to \$145 a year. Actual results may vary.

## **Nest Protect** smoke and carbon monoxide alarm

# Thinks, speaks and alerts your phone.

### **Tells you what and where.**

Speaks up if there's smoke or CO and tells you where it is, so you know what to do.

### **Get alerts on your phone.**

Sends a message when there's a problem in case you aren't home.

### **Seconds count.**

The Split-Spectrum Sensor detects fast and slow burning fires.

## **Nest Cam Indoor** security camera

Look after your home.  
Know if something happens.

### **24/7 live video.**

A 130° view shows you everything in 1080p HD, day or night.

### **Get alerts on your phone.**

Know when there's motion or sound and talk back to get someone's attention.

### **Quick, easy setup.**

Put it anywhere and download the Nest app to get started. No hub needed.
