Data Analyst Intern
ACLIVITI, LLC

ACLIVITI is seeking an exceptional, competitive individual to become a key member of our team. An ambitious and motivated intern will take the reigns on a project that will streamline ACLIVITI's consulting process. This will be an engaging and dynamic role with insight into the operations of an IT consulting startup working with Fortune 1000 companies.

We are:

- A fast-growing, profitable IT professional services firm headquartered in Chicago
- Experts in helping clients find cloud-based, managed IT solutions that save money and solve problems
- Highly entrepreneurial and passionately focused on solving client issues and building relationships
- A close-knit, professional, fun, hardworking team dedicated to continuous improvement

Our Clients Are:

- Global $1-$10B annual revenue companies committed to managing their IT organization as a successful, customer-focused business
- Interested in as a better approach to making decisions and maximizing IT spend and technology value across their organizations
- Diverse - Relationships and engagements are established at the CIO, CFO, and COO level, but our team works with everyone involved in making large transformational IT decisions – VP, Director, and Manager within IT, Business Unit Owners, Procurement, IT Finance and Legal.

To be successful, you will:

- Be working with database software to create an index of vendor feature capabilities and pricing
- Gain experience and skills in client management, create consulting deliverables, and financial business cases
- Work with enterprise-class vendors in the telecommunication cloud service space
- Be accountable for the success and execution of projects

Expected Time Allocation
- 12 week program at 20 hours a week

You Are:

- Skilled in Excel and database software

- Comfortable communicating through a variety of mediums with many different audiences and objectives
- Anticipating and solving complex problems – individually, internally, and with client teams
- An organized self-starter who is always eager to learn something new
- Comfortable adapting to new situations and solving new problems with the pace and occasional ambiguity that occurs in fast growing startups
- A positive force who enjoys working closely with new people and exploring new ideas
- Driven by seeing your work have a direct impact
- Accountable for your work and actions
- Inspired by client and team success

Ideally, you also are:

- A Junior or Senior working towards a Bachelor's degree or higher
- Have experience in or around Enterprise IT
- Interested in culture, sports, music, extreme adventure, travel, health, and community service
- Maintain a leadership position in an extracurricular activity that interests you
- Excited by the prospect of helping to grow and shape a young, successful company
- Actively seeking ways to increase efficiency and productivity of existing processes
