

System Requirements

Technology

As aimsweb™ Plus is a web-based solution and includes a student portal for online test administration, SDP needs to be aware of a number of system requirements for both, aimswebPlus and TestNav, to facilitate an optimum online experience. System requirements for both systems are below.

System Overview and Requirements

aimswebPlus requires no network or computer-based installation. aimswebPlus uses TestNav for the online assessments in grades 2 and up. Please review the system requirements for TestNav in the following section.

Supported Browsers

aimswebPlus supports the current and previous versions of the following browsers: Firefox Google Chrome Safari

Display

Scalable, with a minimum resolution of 1024x768

CPU

2.33Ghz or faster processor

Memory

4GB RAM

Required Plugins or Applications

Adobe Acrobat Reader X or higher

Operating Systems

Microsoft® Windows® 7 (32 bit and 64 bit), Windows 8 (Classic and Modern) or Windows 10; Mac OS X v10.8 or higher

Prerequisite Items for aimswebPlus Subscription and General Use Portable Document Files

(PDFs): All computers must have Adobe® Reader installed to view PDF reports. For MAC users, Firefox preferences must be set to use Adobe Reader.

Secure Socket Layer (SSL): SSL is the standard security technology for establishing an encrypted link between a web server and a web browser, and ensures that all data passed remains secure and private. SSL must be unblocked because aimswebPlus requires SSL encryption.

Active X: Active X must be unblocked because it often prevents PDF files from opening.

Pop-up Blockers: Allow pop-ups so that they don't interfere with pop-up windows. For use computer or other device, allow pop-ups on all browsers (using toolbars) and any additional pop-up software.

Email: Allow all school or District email accounts to receive external emails from Pearson.com, with or without attachments.

Cookies: Accepting cookies is required.

TestNav – the online test administration system for aimswebPlus, Grades 2-8

TestNav app version 1.7.x is required after its July 2018 release. Users will see an error message if a testing device does not have the updated version installed. The table below shows upcoming requirement changes implemented with version 1.7.x.

Note that customers may take the 1.7.x release at varying times, depending on testing sessions.

Requirement Update	Support ending for the following	Requirements increasing for the following	
Affected OS/Device	<ul style="list-style-type: none"> • iOS 9, 10.0-10.2 • iPad 2 and 3 • Android • Chrome OS 50-65 • MacOS 10.10 <p>See Chrome Auto Update Policy.</p>	<p>Minimum</p> <ul style="list-style-type: none"> • 1GB - iOS • 2GB - Android, macOS, Windows 	<p>Recommended</p> <ul style="list-style-type: none"> • 2GB - iOS • 4 GB - Android, macOS, Windows

The requirements in this section reflect TestNav minimum requirements; however, some customers slightly vary requirements for their specific organizations.

Refer to the requirements on the next page to set up browser-based TestNav or installable TestNav.
