ARMSCOR HISTORY

With roots that date back to 1905, it's no wonder so many people count on us for firearms and ammunition. After years of selling a number of different goods, Armscor's founder Don Celso Tuason started to manufacture rifles in 1952. In the 1960's, he saw his eldest son, Demetrio "Bolo" Tuason, had a strong interest in the business and started grooming him to take over. Later still, his two younger sons, Carlos "Butch" Tuason and Severo "Conkoy" Tuason also joined the business.

Our roots are in the Philippines, but in 1985, Armscor Precision International opened its first office in the US and later acquired Rock Island Armory brand, a leading manufacturer and developer of the M1911 pistol.

The future looks bright as Martin Tuason, the 3rd generation of the family, prepares to lead the company forward.

Our dedication to customer service and satisfaction remains our top priority. So if you're a shooter and want to work with a company that cares about the same things you do, make it Armscor and Rock Island Armory.

building THE BRAND

Last year's big news was the opening of new production facilities in Stevensville, Montana. But a more noticeable change is our new look and more simplified brand structure. Moving forward, Armscor is our official brand for ammunition that's "Right on target. Right on the price." Rock Island Amory is our brand for quality firearms that are "Solid as a rock." It's that simple. Our commitment to quality and our lifetime firearms warranty remain the same. Plus our passion is stronger than ever.

*Check out our new look at
www.armscorusa.com!*

The Philipino island of Corregidor, nicknamed "The Rock" by American soldiers stationed there in WWII, was defended by large cannons which inspired the new brand for Rock Island Armory.
