## HISTORY

### Humble Beginning

Armscor traces its beginnings all the way back to 1905, when the first Squires Bingham & Co. headquarters was established in the Philippines. After years of trading clothing, firearms, ammunition, and other items, the company was eventually bought and renamed "Sportsmen's Headquarters" in 1930.

After a decade of business, visionary entrepreneur Don Celso Tuason bought the company at the start of WWII. In 1952, his company created "Squires Bingham Manufacturing Inc." and helped rebuild the post-war Philippines by obtaining the first firearms manufacturing license from the government and opening plants across the country.

In the 1960s he saw his eldest son, Demetrio

"Bolo" Tuason, had a strong interest in the business and started grooming him to take the reigns of the company. Not much later, his two younger sons, Carlos "Butch" Tuason and Severo "Conkoy" Tuason joined the business as well.

The Armscor brand that the world knows and loves did not come into existence until 1980, after Squires Bingham Manufacturing was reorganized and renamed as "Arms Corporation of the Philippines."

### North American Expansion

In 1985, Armscor Precision International opened its first United States office in Pahrump, Nevada. A short while later, Armscor acquired the Rock Island Armory brand, a leading M1911 manufacturer and developer.

The future looks very bright as Martin Tuason, the third generation of the family, prepares to lead the company forward.

With an unprecedented focus on customer service and satisfaction, Armscor is rapidly becoming a driving force in the American and worldwide firearms industry. Today, the company exports to over 60 countries on 6 continents.

### Building the Brand

In 2011, the big news was Armscor's opening of brand new ammo production facility in Stevensville, Montana. But a more noticeable change is the updated brand look and simplified structure of the company.

The restructuring of the business resulted in Armscor becoming the official ammunition producer of the family owned company that's "Right on target. Right on the Price."

As a result, Rock Island Armory is now the sole producer of firearms in the Armscor family under the tagline of "Solid as a rock."

In 2016, Rock Island Armory opened a new firearm manufacturing facility in pahrump, NV. Becoming one of the only company in the world to make firearms and ammunition in USA and another country.

### Timeline

Armscor celebrates a rich and full history in the development of the company as it stands today. Below are a few milestones that it has accomplished so far:

<p><b>1905</b> Founding of Squires Bingham by Roy Squires &amp; William Bingham.
