

# Pre-Design Consult Checklist

You are on your way to simplifying your Home & Life!

In order to make sure we maximize every minute of the Design Consult we just ask that you read below and make sure the spaces are ready!

## Be Prepared

Please remove anything that would block us from obtaining clear measurements wall to wall and floor area. We have a laser that we use to measure for exact measurements. We need to account for outlets or obstacles such as floor vents, access doors, clean outs, light switches and electrical outlets.

## Be Attentive

We ask that you do not schedule any other appointments at the same time. It is important that we fully understand your projects needs & wants so TCR will be able to design the most functional design to fit your busy lifestyle.

## Secure Your Animals

If you have a pet that may not like a stranger in the house we ask that you keep the pet in another room for the short time. We have actually had a dog eat a pair of one of our design consultants shoes & bite one of our installers.

## Be Inspired

If you have photos of inspiration please show us! If you have had other quotes and designs let us know what you liked and didn't like.

## Tell us your story

We want to know how you found us! Whether its was a friendly referral or a Facebook ad, we want to know your experience so that we can continue to provide the best quality service for the Charlotte community.

Our Team believes that the process of creating your design should be functional, affordable and fun! We are confident that you will be extremely pleased with our customer service, competitive pricing, and quality we will provide.

If you need to reschedule please contact your Design Consultant at least 24 hours prior to scheduled time.
