SUREROOTS® - POP BOTTOM TRAYS

- Top surface ventilation provides upward air flow, reducing moisture and the spread of diseases.
- Used as field liner or shift up to 1 or 2 gallon finished product.
- SureRoots-15 produces large 540ml root system.
- Burn hole drainage provides sufficient water movement.
- V-shaped ribs from top-to-bottom to prevent root wrapping.
- Perfect for ornamental shrubs, grasses, hops and fruit bearing shrubs.
