

HUMAN MACHINE INTERFACE SOLUTIONS

Tapecon helps improve market competitiveness by manufacturing custom machine interfaces that improve the usability of your product. Tapecon is a recognized leader in the design and production of custom keypads and switches. We can supply components like simple printed and die-cut panels, to full assembled, tested and ready-to-install units.

Capabilities

Printed Conductive Ink
Flexible Printed Electronics
Laminating
Die-Cutting
Product Assembly
Graphic Overlay Printing
Engineering & Design Solutions
Embedded Component Technologies
ESD/EMI/RFI Shielding
Connectors

Display Integration
LED Backlighting
Tactile Buttons
Textured Coatings
Pick & Place (SMT)
Embossing
Housings
Selective Textures
Metal Backers
Testing

ISO 9001
ISO 13485

Applications

Membrane Switches
Numerical Keypads
Elastomeric Keypads
Electroluminescent Backlit Panels

Proximity Sensors
Tactile Feedback Switches
Force Sensors
Track & Trace Devices

Hybrid PC Boards & Switches
Capacitive Sensing Keypads
