AdvantX: Maximizing the Performance of Ambulatory Surgery Centers and Specialty Hospitals

AdvantX Surgery Center: A comprehensive solution for today's ASCs

The AdvantX Surgery Center application includes feature-rich functionality to improve facility management and optimize patient care while accelerating productivity and cash flow.

Features include:

- Scheduling and registration
- Physician preference cards
- Case history
- Inventory management
- Case costing and analysis
- Managed care contracting
- Billing and accounts receivable automation
- Physician and staff credentialing
- Utilization analysis
- Quality assurance capabilities
- Industry-standard HL7 interface capabilities to facilitate sharing of data with other in-house systems
- Robust administrative, statistical, and outcomes reporting
- A wide array of add-on modules

AdvantX provides end-to-end functionality and enterprise-wide reporting

AdvantX: The leading information management solution for ambulatory surgery centers

Our AdvantX suite consists of the industry's leading ASC application, an integrated electronic health records (EHR) system, and a specialized specialty hospital information management system.

AdvantX streamlines and improves administrative and clinical processes from scheduling, registration, clinical documentation, and inventory management to billing, collections, and revenue cycle management. Whether you are a freestanding facility or part of a corporate network, our enterprise system intuitively follows your facility's workflow, improving cash flow, productivity, and patient care all while helping you to proactively manage your business.

AdvantX Specialty Hospital: The leading solution for specialty hospitals

AdvantX equips your Specialty Hospital with the functionality you need to manage both inpatient and outpatient care including:

- Scheduling and registration processing
- Physician preference cards
- Census and bed management
- Case history
- Purchasing and inventory management
- Case costing and analysis
- Payer contracting
- Billing and accounts receivable
- Physician and staff credentialing
- Comprehensive reporting
- Utilization analysis
- Acuity tracking
- Quality assurance
- A wide array of add-on modules

Add-on products, revenue cycle, and workflow applications

Through the SourcePlus suite of add-on modules, revenue cycle management tools, and workflow enhancement applications, SourceMed delivers added value to ASCs helping you to further optimize facility management, improve cash flow, and maximize your return on investment.

AdvantX Enterprise: A seamless enterprise-wide solution

By using a combination of our AdvantX products, affiliated ASCs and specialty hospitals can securely share clinical and financial information across the continuum of care. With AdvantX Enterprise, your organization can enjoy the following benefits:

- Share key demographic data with other facilities with an enterprise-wide master patient index
- Share physician schedules across the enterprise with resource-based scheduling
- Share CPT codes, diagnosis codes, and other key user table information with other facilities
- Maintain facility-specific fee schedules and billing information
- Interface seamlessly with other applications using standard HL7 protocols, facilitating enterprise-wide communications and data sharing

About SourceMed

SourceMed is the largest provider of outpatient technology solutions and revenue cycle services for ASCs, specialty hospitals and physical therapy clinics. With over 30 years of industry experience and the confidence of more than 250 consultants and management companies, the company's software, analytics, revenue cycle services and professional services give outpatient providers the insight to deliver a higher standard of patient care. Their integrated solutions capture, exchange and analyze data enabling more than 6,500 outpatient facilities nationwide to optimize revenue, operational efficiency, and compliance.
