

# BLISS

CANNABIS - INFUSED

INTIMATE OIL

TAKE YOUR SEX LIFE  
TO A NEW HIGH.

## FIRST-AND-ONLY CANNABIS-INFUSED...

Intimate oil formulated by a licensed and credentialed sexual health specialist and cannabis clinician.

### BLISS IS FOR EVERYONE

Dr. Alex Capano developed BLISS after years of helping patients lead happier, healthier, more powerful sex lives while simultaneously studying the biological science of cannabis. After she validated the incredible benefits of cannabis, she knew it was something her patients could benefit from and she was compelled to create BLISS. As a nurse practitioner who focuses on sexual and reproductive medicine, Dr. Alex Capano often hears from patients who are underwhelmed or unfulfilled in their sex lives.

This complaint is more common in women and often due to dryness or pain and, unfortunately, there are limited solutions. For men, prescription drugs are available, but they're not always safe options. Additionally, folks who have undergone specific medical treatments, such as gender confirmation surgery, are often asking for safe options to enhance sensitivity.

BLISS Intimate Oil is a natural, effective alternative that could help elevate the sexual experience for every body. When people enjoy sex and are empowered in their sex lives, they lead happier, healthier lives.

## ELEVATE YOUR PATIENTS' SEX LIFE

The natural, organic cannabinoids in BLISS encourage blood flow to sexual tissues, maximizing their potential, and the carefully selected essential oils induce a subtle yet stimulating sensation. The active ingredients in BLISS can help increase libido, encourage natural lubrication, and maximize pleasure...in both quality and quantity.
