

The Targeted 10- Personalized assignments in just a few clicks

Now that your students have had a chance to try out some Knowre Math lessons, it's a great time to assign a Targeted 10. The Targeted 10 is a personalized, 10-question assignment delivered to each student with just a few clicks!

You can assign a Targeted 10 from the “Assignments” page (A) of your Teacher Dashboard. Simply select the “New Assignment” button (B) and then “Targeted” 10 from the menu.

The screenshot shows the Knowre Math Teacher Dashboard for a class named '4th Grade (Period 1)'. The 'Assignments' tab is highlighted with a green box and labeled 'A'. The 'New Assignment' button is highlighted with a green box and labeled 'B', with a dropdown menu showing 'Lesson Assignment' and 'Targeted 10 Assignment'. Below the navigation, there is a table of assignments:

Due	Type	Assignment	Completed	KSS	Achvmt
Jan 12	Lesson	5-3, 5-4	0 / 1		
Oct 31, 2019	Lesson	2-2, 2-3	0 / 1		

Benefits of Targeted 10 assignments:

- **Personalized assignments in no time:** normally creating differentiated assignments based on each student’s strengths and weaknesses would be very time consuming. With the Targeted 10 differentiated assignments are created in seconds.
- **Review:** the Targeted 10 is a great assignment when you need students to review previously taught topics. With the Targeted 10 students can all review the same topics with a specific focus on their unique areas for growth.

****Note:** Unlike Lesson Assignments, questions in the Targeted 10 can not be retried. These questions do, however, still include video and Walk Me Through support.

How To: Targeted 10 Assignments

There are two steps to creating a Targeted 10 assignment:

Step 1: Select the content you want the Targeted 10 to focus on.

Step 2: Select the students who should receive the assignment and it's due date/time.

Step 2: Select the students who should receive the assignment and it's due date/time.

What students will see:

Due date and time.

1-click access to the Targeted 10 assignment.
