

About Symmetry

Your Managed ERP & Cloud Hosting Provider

SAP® Technical Management Experts

Symmetry manages complex SAP® implementations on an international scale for more than 200 of the world's leading enterprises in challenging and heavily-regulated industries such as healthcare, financial services, retail, manufacturing, and automotive to name a few. Our SAP® certifications and customer-first mindset ensure your mission critical applications are running smoothly and in line with industry standards, **24x7x365**.

We are confident that we now have a “total package” partner with advanced security, the right experience and expertise, and a support staff just a phone call away who can help us meet our goals. Symmetry’s deep expertise and proven experience with SAP HANA® is enabling us to execute our IT strategy.

— Sharon Kaiser, CIO | New England Biolabs

The Symmetry Way | Dedicated To Your Success

Since 1996, Symmetry, when compared to any other independent SAP service provider, has developed an unrivalled level of SAP expertise. We provide one of the industry's most advanced SAP hosting platforms, and our service portfolio includes expert SAP technical management across all deployment types: on-premise; hosted; private; public and hybrid cloud. We also provide an award-winning governance, risk and compliance (GRC) solution, ControlPanelGRC®, which enables comprehensive compliance automation of SAP environments.

Through our proactive, customer-centric business model known as **The Symmetry Way**, we establish trusted, long-term partnerships that other providers simply cannot match. The Symmetry Way is more than just a methodology or set of beliefs. It governs every customer and partner engagement and decision we make – from team, to process, to technology – for seamless integration between your team and ours.

NET PROMOTER SCORE
Symmetry is highly focused on customer satisfaction, and leads the cloud hosting and app management industry with a Net Promoter score of 59.

INDUSTRY-LEADING SAP HANA[®] EXPERIENCE

Bespoke Solutions for Your Business

Our goal is to offer you solutions that are flexible, scalable, and easy to implement without a huge upfront expenditure. We believe that when we design a solution tailored to your needs. Everyone wins.

We provide transparent pricing, downtime scheduled around your operations and a clear outline of project phases to support an easy to understand roadmap of the process. With security, quality and scalability built into our hosting solutions and data centres, you can be confident that you'll have the flexibility and support you need. Furthermore, we understand that business and technology needs are always changing – weekly, daily, or even hourly. Slow response is not an option, so we are poised to adapt to your requirements, move fast and deliver without fail.

The bottom line? Whether you need us to design and build your infrastructure, store mission-critical data, or manage day-to-day operations – our team is dedicated to ensuring you have a consistent, high-quality, and truly world-class customer experience.

Our SAP HANA Cloud platform is affordable, scalable, and secure. Whether you need to perform a new implementation, a migration or simply an upgrade, Symmetry's industry-leading experience and expertise navigates you through the process.

Our People Make All The Difference

There is no need to sacrifice quality for affordability. Symmetry's core business functions around our commitment to expertise, professionalism, clear and open communication, as well as a focus on the use of talented people, equipped with industry-leading tools, to manage your environments.

No matter what enterprise applications you are using, or where you're located, we'll take care of all the details. Our certified cloud and SAP engineers can deliver support for an entire environment or a single landscape, and their expertise is second to none.
