

Facts and figures

expocloud GmbH

Established 29.11.2018

Profile The expocloud GmbH is the leading platform for Event-Resource-Management. The company claims to make live-communication more agile and efficient. With the help of the company's Event Metrics technology success monitoring and the analysis of visitors' behavior at trade fairs become as easy as in online marketing.

Leistungen

- Event Metrics
GDPR-compliant capturing and analysis of the visitors' behavior at trade fairs
- Event-Resource-Management Platform
