

# Safer Operation by Design

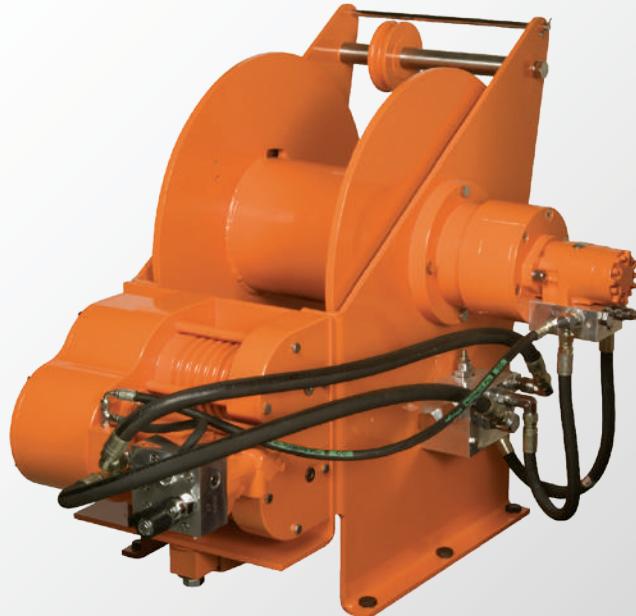

DP Winch® manufactures a complete line of planetary winches, capstans and bumper packages that get the work done on utility trucks, towing and recovery vehicles, trailers, and other equipment.

The DP Winch traction winch series of products is specifically designed for the Utility Industry. There are reasons more and more Utility fleet managers specify traction winches, bumper winches, capstans and accessories over other brands, but we'll start with the first—*safer operation by design*.

Only Dp traction winches are designed with safety features typically offered as options on competitive products. This means added protection against operator accidents, injuries, and equipment failure. At DP Winch, we know that overloading and downtime impact your bottom line. That's why every Dp traction winch is engineered from the very start to help you and your crew work safer—and smarter.

At DP Winch, safety isn't an afterthought—it's a mindset.

*The Power to push, pull, lift and rotate.*

TWG is a global leader in standard and engineered winch, gearbox and electronic monitoring systems.

# DP Winch®—The Utility Industries Choice

Our portfolio of traction winches, bumper winches and capstans is specifically designed for optimum performance for the Utility Industry

## Constant-Pull Traction Winches

Outstanding performance, more consistent operation, increased rope life

- Ideal for pulling long runs of underground conductors, delicate fiber-optic cables and hard-to-access overhead lines
- Pulling capacities up to 25,000 lbs.
- Constant rope speed and pull

## Bumper Winches

Advanced design to help Utility fleets work safer and smarter

- All-welded construction for longer equipment life
- Pulling capacities up to 30,000 lbs.

## Capstans

Advanced engineering for reliable operation and extra long life

- Output torques up to 24,000 in.-lbs.

As a leader in product innovation, TWG is committed to the ongoing improvement of its equipment. TWG reserves the right to make changes to our products without notice.
